

## Board of Directors' Environmental Policy

The Rhode Island Airport Corporation will achieve its mission through responsible environmental stewardship and the implementation of proactive environmental programs. The Corporation will integrate environmental considerations into all aspects of its strategic planning and business decision-making.

The Corporation will actively seek resolutions to environmental issues by endeavoring to achieve the following goals:

<b>Compliance</b>	Comply fully and promptly with all applicable environmental laws, regulations, and Corporate policies.
<b>Planning</b>	Integrate environmental costs, risks, impacts, and public concerns into operating decisions and facility development planning processes.
<b>Natural Resources</b>	Minimize impacts and seek opportunities to enhance natural resources while carrying out Corporate policies.
<b>Pollution Prevention</b>	Minimize pollution and waste through source reduction, reuse, or recycling.
<b>Management Commitment</b>	Communicate this policy and its requirements and deliver the training, tools, and resources required to implement this policy.
<b>Government Relations</b>	Develop cooperative working relationships with agencies and promote development of sound environmental legislation and regulation.
<b>Community Relations</b>	Provide community outreach and leadership on environmental issues and respond in a timely fashion to inquiries or expressions of concern regarding environmental issues related to Corporate and tenant activities.
<b>Performance</b>	Improve the Corporation's environmental performance through regular monitoring and evaluations.
<b>Quality</b>	Achieve superior environmental performance and work product.
<b>Continuous Improvement</b>	Continuously improve the effectiveness of the Corporation's environmental program.

*Implementation of this policy is the responsibility of all employees.*
