

May 22, 2002

Dear T. F. Green Airport Master Plan Study Resource Committee Member:

The Rhode Island Airport Corporation (RIAC) is pleased to transmit to you the following materials for the June 5th meeting of the Study Resource Committee (SRC):

- Meeting agenda
- April 25th SRC meeting summary
- April 25th technical subcommittee meeting summary
- Feedback on input from the SRC

You will see from the agenda that the meeting will focus on reviewing and evaluating 15 potential airfield layout concepts. The SRC will break into small groups to discuss these concepts and their pros and cons. The June 5th meeting will occur at the usual time (5:30 p.m. to 9:00 p.m.) with dinner provided to SRC members and alternates at 5:00 p.m. There will be one more SRC meeting in July on alternatives, which will focus on terminal, surface transportation, and support facility alternatives.

As you will recall, RIAC formed an SRC technical subcommittee to allow us to thoroughly address some of the more technical Master Plan issues. This subcommittee met for the first time on the afternoon of April 25th. The meeting was very successful and resulted in meaningful discussion on the crosswind runway and the facility needs. We will be holding the second technical subcommittee meeting on the afternoon of June 5th.

Thank you for your continued participation in these meetings. I look forward to seeing you on June 5th.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Cheston", with a long horizontal line extending to the right.

Michael G. Cheston
Executive Director
